<b>Please answer all questions to the best of your ability. All answers will be printed in the proposal book along with the proposer's name (address and phone numbers will not be published). Use separate forms for each proposal. Address only one issue per proposal. State the issue clearly and concisely. The board will reject multiple or confusing items.</b>	
<b>1. Alaska Administrative Code No. 5 AAC:</b>	<b>Regulation Book Page No.:</b>
<b>2. What is the issue you would like the board to address and why?</b>	
<b><u>1 every 4 year bag limit for brown bear in Unit 14C Remainder</u></b>	
Unit 14C Remainder within the Chugach National Forest is adjacent to Unit 7 that also includes the Chugach National Forest. Brown bear populations in both units are abundant.	
The bag limit for brown bear in Unit 7 is one bear every regulatory year Sept 1 – May 31 for both residents and nonresidents under the RB 300 permit.	
We see no reason the same bag limit and registration permit structure should not be implemented in Unit 14C Remainder.	
<b>3. What solution do you recommend? In other words, if the board adopted your solution, what would the new regulation say? (Please provide draft regulatory language, if possible.)</b>	
<b>Brown /Grizzly Bear</b>	
<b>Unit 14C Remainder</b>	
<b>Resident &amp; Nonresident</b>	
<b>One bear every regulatory year by registration permit RB XXX Sept 1 – May 31</b>
