1. Alaska Administrative Code Number 5 AAC:	Regulation Book Page No:	
2. What is the issue you would like the board to address and why?		
One bear every four regulatory years for resident hunters in Unit 9		
If there are no conservation concerns for brown bears in Unit 9 under the RB 368, RB 369, and RB 370 registration permit hunts, and we are allowing unlimited nonresident opportunity that results in nonresident hunters taking >80% of the bears, there is absolutely no need for a restriction on resident hunters to only take one bear every four regulatory years.		
These registration permits are only available every other regulatory year as it is, so residents already are restricted to one bear every two regulatory years.		
3. What solution do you recommend? In other words, if the board adopted your solution, what would the new regulation say? (Please provide draft regulatory language, if possible.)		
Remove the "one bear every four regulatory years" requirement for residents hunting under the RB 368, RB 369, and RB 370 registration permits in Unit 9.
